	Clip	20.00 x 10.60 x 13.30	0.41
	Sheet	21.20 x 20.00	

Product Description

Elevate your washroom experience with trusted and familiar Scott® Essential™ washroom solutions, designed to help you support washroom hygiene standards in high frequency environments without compromising on quality and value. Scott® Essential™ interfold paper towels are our most efficient disposable hand towels, designed for reliable everyday hand drying. Interfold paper towels, or V fold paper towels as they are also known, are designed to dispense one paper hand towel at a time. This single sheet dispensing method is designed to improve hand hygiene by minimising the risk of contamination when hand drying as the user only touches the sheet they're using. Our touch free dispensers reduce the risk of cross contamination. Dispensing one paper towel at a time is also designed to improve cost in use as the user only takes the hand towels they need when drying hands. With 340 hand towels per clip, maintenance time is reduced as there are fewer product changeovers. This high volume of paper hand towels per clip is also designed to support workplace hygiene standards in high frequency environments as the risk of run outs is lower than hand towels with fewer paper towels per clip. These folded paper hand towels also feature our unique Airflex™ Technology resulting in faster absorbency for more hygienic hand drying, whilst also using less and creating less waste, helping you get more for your spend whilst improving workplace hygiene. These interfold hand towels feature compression technology for increased sustainability through reduced storage and transportation. Compatible with a variety of Kimberly-Clark paper towel dispenser options: Aquarius™ dispensers in white or black (product codes 6945 and 7171), a high capacity dispenser (code 9962) and a high image stainless steel dispenser (code 8971). FSC and European Ecolabel certified for environmental assurance. Food contact certified. One clip of Scott® Essential™ interfold paper towels contains 340 V fold hand towels. Each 1 ply paper towel measures 21cm x 20cm. 15 packs x 340 white, 1 ply sheets (5,100 total)

Product Features

- One clip of interfold hand towels contains 340 V fold hand towels
- Our most efficient folded paper towel for reliable everyday hand drying
- Efficient and effective hand drying that creates less waste thanks to the Airflex™ Technology in these paper hand towels

International Standards and Symbols

Solution

Healthier Workplace

The HEALTHY WORKPLACE PROJECT* is a comprehensive office hygiene programme which helps engage employees and reduce sickness.

Standard R+E

Food Contact Regulations

This product is suitable for food contact and complies with Regulation (EC) No. 1935/2004. Furthermore, nitrile rubber gloves comply with Regulation (EC) No. 10/2011 and German Recommendation, BfR No. XXI, and paper products comply with German Recommendation, BfR No. XXXVI.

AIRFLEX* Technology

AIRFLEX*

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Trade
