Product Description

A repeat-use wiper with HYDROKNIT* technology and powerpocket embossing that is highly absorbent, strong and durable (wet or dry), resists most solvents, reduces residue, allows fast cleaning and helps reduce costs. The embossing offers a great advantage for debris pick-up and gentle scrubbing.

Ideal for: industrial areas where heavy-duty task segregation is required; tougher cleaning in clinical and patient areas, kitchens and food processing areas; helping to reduce cross-contamination by using colour coding. Cloths can be rinsed and reused, helping to reduce waste and lowering cost in use.

Available as: quarterfolded wipers, wrapped in a splash-proof, water-repellent polybag, giving you immediate access to hygienically protected wipers in your work area. Can be dispensed with our corresponding 7969 Quarter Folded dispenser.
