

## FICHE TECHNIQUE

### Ref. 1988-TRCS

#### Mod. 'FIT EAR'. Reusable silicone ear plug with cord.

Characteristics: Reusable hypoallergenic silicone ear plug, medium attenuation (32dB). Washable, very soft and comfortable plugs. Security cord to prevent loss and facilitate use. Dielectric hearing protector, without mechanical components (Metal-free). Its structure allows no direct contact with the plugs (better hygiene). Dispense for 100 pairs in individual storage box with attachment clip.

Uses and functions: in all kinds of activities with moderate noise level (metal industry, construction, automotive, workshops, chemical industry, outdoor work...).

CE EN352-2 Hearing protection. Plugs. SNR= 32 dB (H=32, M=29, L=28)
