

Gloves ARIOSO PALM ESD

Anti-static work gloves designed to protect workers and their environment from damage and mechanical risks. The ESD gloves protect the products by eliminating the creation of an electrostatic discharge and minimize and reduce the risk of an electrostatic shock or explosion.

Gloves are made of white nylon fiber and the palms are covered with white polyurethane. The surface of the gloves is soft with a perfect tactile sensitivity. They are flexible and have reinforced cuff to put on easily.

Using

Protection of electronic components against electrostatic discharge.

Material

100% nylon

Coating

Polyurethane

Electrostatic properties

- surface resistance $10^{6-7} \Omega$

Packaging

10 pair / box
 25 boxes / CTN

Colour

White

Catalog number

12076 (size S/6)
 12077 (size M/7)
 12078 (size L/8)
 12079 (size XL/9)
 12080 (size XXL/10)

Sizes - EN 420

| Cut resistance | 1 |
| Tearing strength | 3 |
| Puncture resistance | 1 |
| Cut resistance Test ISO 13997 | X |

Notice

Personal protective equipment - Category II

Technical list is accompanied by a detailed information for users.

Handling and storage

Gloves are stored in a dry and cool place in marked cartons.

Storage time max. 12 months from the date of production

Certificates and standards

EC certificate of conformity
 EN 16350
 EN 420:2003+A1:2009
 EN 388:2016
